

Daisy Flower Pot 3-D Project

Need a little gift to brighten someones day? This little daisy in a flower pot, with a message on the back and a lollipop treat inside... will definitely brighten their day!!!

Several years ago I designed a similar project using different Stampin' Up! products. Back then to create the flower pot I traced a cardboard template onto cardstock or designer paper. That was before Stampin' Up! sold the Bigshot and dies... now we can use the Coffee Cups Framelits Dies to create the flower pot... no templates & no tracing!

You are going to love how easy this project is to make.

We will be using several of my favorite

Stampin' Up! products... the Daisy & Leaf Punch, Coffee Cup Framelit Dies and the new Basket Weave Dynamic Textured Impressions™ Embossing Folder (Sale-A-Bration Second Release Product).
