### Instructions for Gift Tote:

1. Run top two panels Early Espresso cardstock through the Big Shot using Pinewood Planks 3D Dynamic Textured Impressions Embossing Folder to texture. Repeat for other two panels. At the seam (or middle) it will not be perfect... this is the back/bottom of the tote and no one will notice :)
2. Insert Early Espresso cardstock into 3" x 6" Gusseted Cellophane Bags with middle score line in the bottom/back of bag. The top panel will fold over the front of the cellophane bag.
3. Cut pine boughs from Mossy Meadow cardstock using Pretty Pines Thinlit Dies, Big Shot and Magnetic platform. Use Big Shot Die Brush to remove pine boughs from dies if needed. Attach tops of pine boughs to top panel of tote with two Mini Glue Dots each.
4. Cut two pine cone from Gold Foil and one from Early Espresso cardstock using Pretty Pines Thinlit Dies, Big Shot and Magnetic platform. Use Big Shot Die Brush to remove pine cone from dies if needed. Apply Tear & Tape Adhesive to the back of one Gold Foil pine cone and adhere over tops of pine boughs.
5. Slide paper clip over the top of the Early Espresso pine cone. Apply Tear & Tape Adhesive to the back the other Gold Foil pine cone and adhere to Early Espresso pine cone covering the front of the paper clip.
6. Tie Copper Trim around the top of the paper clip, the stretch each end of ribbon and shape as desired. Use paper clip to close top panel of tote.
